WHAT WILL EDUCATION LOOK LIKE IN 2030?

We are in the year 2030 and our government, corporations and civil society have all learned to work closely together to address the important changes that have occurred. Some of these changes include robotics and Artificial Intelligence. Although initially causing significant disruption and loss of employment for a large portion of the workforce, they have reduced the cost of goods and services. In addition, they have allowed humans to once again focus on creation and innovation requiring new skills.

There is no doubt that the education system has successfully prepared students for the demands of the steam, electricity and automation industries. However, with the advent of the digital industry, a gap still exists between the school system and that of a society that has become innovative. In the age of acceleration, digital technologies that are transformational in a number of areas, the school system is facing a huge challenge to prepare students for the jobs of tomorrow. What roles do our schools play in leading us to this point? What role will they play in 2030?

Education is always evolving, discovering better ways to prepare students for success in a changing world. In the coming decade, unprecedented social, technological, political, and environmental change will require educators to adapt to new methods, roles, and outcomes. But how should we approach these challenges? And how can we begin preparing for the future today?

THIS CONFERENCE WILL EXPLORE THREE KINDS OF QUESTIONS:

How can the education community better orient itself to recognize, assess, and adapt to changing technological and social realities?

What kinds of opportunities in educational development will be attainable in the coming decade, and how can we begin to explore them today?

What can we do to equip our education system and our children for success and sustainability in such a rapidly changing world?

WHO WE ARE

OUR VISION:

Reshaping our learning community culture

VALUES:

- + Join the AES network and take action
- + Be a presenter and help educators grow
- + Share resources and contribute to the movement
- + Be an advocate and make a difference
- + Lead the way and transform learning

This year, the Atlantic Education Summit is organized by a group of partners of the learning community which are: Anglophone East School District, Association pour l'avancement pédagogique des technologies de l'information et de la communication en Atlantique, Brilliant Lab, CompeTI.CA, Dialogue NB, District Scolaire Francophone Sud, Education Early Childhood Development, Mount Allison University, New Brunswick Association of School Business Officials, New Brunswick School Superintendent's Association, New Brunswick Education Supervisor Association. Teachers, students, parents, administrators, education leaders and entrepreneurs who are passionate about transforming education as our goal is to promote innovations by producing transformational learning opportunities. We believe that a successful education system requires a community of diverse individuals connected to each other and to their goals, and we are committed to achieving that success.

The 2019 Atlantic Education Summit promises to be our most engaging conference yet, as we celebrate innovation in educational and explore possibilities for the future. Our expanded workshops and sessions include local business leaders and parents, collaborative partners critical to our learning community. Throughout this three-day, bilingual summit, delegates will be inspired and encouraged by insightful keynote presentations, workshops, stimulating discussions, and exciting networking opportunities.

SHARPEN YOUR FOCUS WITH THIS EXCELLENT LINEUP OF

**MICHAEL
CHIAPPETTA**

Michael is a successful business consultant whose work focuses on corporate, civic, and community development in Chicago. Actively partnering with key players in the Chicago tech community, he has most recently spearheaded the establishment of the Chicago Apprentice Network, a rapidly growing program helping recent graduates acquire the tech skills they will need for success.

**MARTIN
LATULIPPE**

Martin is a bestselling author, multiple award-winning speaker, and proud New-Brunswick. A man of impact, he has established himself as one of the most sought-after experts of his generation. Martin is a strong believer in educational technology, and he offers online student programs to assist courageous young leaders who want to build a better world.

THOUGHT-PROVOKING SPEAKERS

**DR. KAREN
STARR**

Karen is an educator, researcher, and leader in the field of education governance and business at Australia's Deakin University. A top expert in education development and experienced professional speaker, Professor Starr has established strong national and international links and partnerships with governments, professional associations, schools and the education profession.

**DR. WILLIAM
RANKIN**

William is a learning designer and professional speaker with broad experience in teaching and educational technologies. Following 24 years of work as a professor of English and Honors College Fellow at Texas' Abilene Christian University, Dr. Rankin left academia to direct large-scale education enrichment projects with Pi-Top and Apple Inc. He now works with schools, governments, and learning organizations worldwide to design, develop, and implement innovative learning initiatives.

SPONSORSHIP AS PARTNERSHIP

When you sponsor the AES, we welcome you as partners to help us pursue bold and innovative solutions in the education sector. We understand that your participation demonstrates a commitment to education and an understanding of our role as stewards of our children's future. Join us as we engage in meaningful conversations and foster a dynamic and innovative environment of cooperation for education professionals.

AT THE 2019 ATLANTIC EDUCATION SUMMIT, YOU WILL FIND:

- EXPOSURE:** Collaborate and network with dedicated professionals in a meaningful and personal way, showcasing services and products to a wide range of open-minded professionals.
- INTEREST:** Our event opens new channels of discussion and facilitate new conversations for the growth and development of lasting partnerships with delegates in diverse leadership roles from across Atlantic Canada.
- IMPACT:** When you contribute to valuable conversations about progress in education, you join us in building a brighter future for our children's health, success, and well-being.

TO EXPLORE PARTNERSHIP OPPORTUNITIES TAILORED TO YOUR BUDGET AND GOALS, **PLEASE CONTACT:**
